

## Electromagnetic graphical modules

### XY7

<b>Technology:</b>	display formed from small 1" / 25.4 mm digits
<b>Size:</b>	a panel 4 lines of 7 digits
<b>Speed:</b>	ultra high
<b>Noise level:</b>	high
<b>Special features:</b>	greyscale emulation, geometrical shapes
<b>Communication interface:</b>	RS485 (with possible conversion to Ethernet IP network)

### XY5

<b>Technology:</b>	dot matrix display 13.5 mm / 0.53" or 8.9 mm / 0.35"
<b>Sizes:</b>	14x28 / 7x28 / 7x21 / 7x14 / 7x7
<b>Speed:</b>	high
<b>Noise level:</b>	moderate
<b>Special features:</b>	precise mapping of bitmaps
<b>Communication interface:</b>	RS485 (with possible conversion to Ethernet IP network)

**Standard colors:** white / black or yellow / black.

**Special colors:** please contact us to get an estimate. In general there are many options and each case must be considered individually. There is also a choice of finish (matte / glossy / metallic) but not finishes are possible for all colors. Price depends on qty, still there is no minimal amount.

**All prices valid for 30 days from reception of the document.** NEG = to be negotiated upon request
